Updated as of 8/18/21

Information about NY Medicaid Coverage

As of 08/01/21, Fee for Service Medicaid coverage for ABA in NY is active. The Medicaid Managed Care coverage will be active 10/01/21. Providers who meet eligibility criteria, which is listed on the New York State Medicaid Update - July 2021 Volume 37 - Number 9 and on eMedNY.org, may enroll as Medicaid Providers.

The New York State Medicaid Update - July 2021 Volume 37 - Number 9 states the fee schedule is $29 per hour for all listed codes. The only credentials listed on the New York State Medicaid Update are Licensed Behavior Analyst (codes: 97151, 97155) and Certified Behavior Analyst Assistant (97152, 97153).

Interested providers are encouraged to read and understand all sections of the Medicaid Provider Application. There is not yet a published Provider Manual for Applied Behavior Analysis on eMedNY.org. NYSABA encourages all interested providers to seek legal advice if they are unsure of anything written in the application or posted in the Medicaid Update listed above. When submitting an application, a provider is agreeing to be bound by all Medicaid rules and regulations. As stated on the first page of the application, "As a Medicaid provider, you agree to comply with the rules, regulations and official directives of the Department including, but not limited to, Part 504 of 18 NYCRR (i.e., Title 18)."
